CHAIRMAN'S MESSAGE

FY2020/2021 has been a challenging but fulfilling year marked by several significant milestones. My fellow Town Councillors and I assumed our new term in office with a fresh resolve and renewed vigour to improve the homes and environment of residents in CCK Town (Chua Chu Kang GRC and Hong Kah North SMC).

Chua Chu Kang Town Council (CCKTC) got off to a good start with a triple achievement of a 'Green' rating for Estate Cleanliness, Estate Maintenance and Lift Performance in the Town Council Management Report. These results would not be possible without the hard work and dedication of staff as well as the invaluable support and cooperation of our residents.

Keeping Our Residents Safe

During the COVID-19 pandemic in 2020, the Town Council took steps to enhance the cleanliness of the estate to protect our residents' health and wellbeing. When the circuit breaker started in April 2020, the Town Council increased the frequency and intensity of cleaning and disinfection of all common areas, especially high-touch points like lift buttons, letterboxes, void deck tables and chairs, playgrounds and fitness areas.

Estate Maintenance & Improvement Works

In FY2020/2021, the Town Council completed various improvement projects with funding from the Community Improvement Projects Committee (CIPC). These projects, which include covered linkways, ramps and drop-off points, offer residents the ease and convenience of seamless, barrier-free travel, especially during inclement weather.

Meanwhile, we have also spent a total of \$6.89 million on improvement works under the Neighbourhood Renewal Programmes (NRPs) to enhance and rejuvenate eligible estates and amenities. The newly constructed themed children's playgrounds, multi-generational leisure facilities and fitness corners add vibrancy to the town and encourage residents of all ages to lead an active and healthy lifestyle.

In FY2020/2021, the Town Council spent \$16.31 million on cyclical works which include repair and redecoration, repainting, re-roofing, re-wiring and replacement of various equipment such as booster pumps/water pipes, hoisting ropes/sheaves of lifts, as well as replacement of lifts.

A total of 104 lifts have been replaced under the Selective Lift Replacement Programme (SLRP) and another 130 lifts were enhanced through the Lift Enhancement Programme (LEP) to provide residents with a safer, faster and smoother ride.

Greening Our Eco-town

As part of CCK Town's eco-initiatives, we have installed solar panels in 150 blocks, out of the almost 500 blocks targeted for completion in the next few years. In addition, the lights in common corridors and passage ways have been replaced with energy-efficient LED lights which offer savings and better lighting quality.

In support of the nation's OneMillionTrees movement and as part of our ongoing efforts to create a greener and more sustainable living environment for our residents, we planted over 370 trees in CCK Town in FY2020/2021.

Hidden Gems in CCK Town

Residents responded enthusiastically to the Town Council's first photo contest held in the 4th quarter of 2020 with close to 280 submissions of picturesque spots in our beautiful town. We discovered many hidden gems within CCK Town seen through the eyes of our residents.

Financial Report

For this financial year, the Town Council had an operating surplus of \$4.25 million with consistent prudence in managing our expenditure. Despite higher operating and maintenance costs, the Town Council has been able to maintain the current S&CC. We will continue to maintain a high standard of estate management by working closely with residents, community partners, grassroot organisations and relevant agencies.

Code of Governance Practice

The Town Council adopts best practices in corporate governance in the performance of its fiduciary responsibilities to promote greater accountability and transparency.

Town Councillors are appointed and/or re-appointed after a thorough evaluation of their relevant experience, skills, core competencies and track record. Potential candidates are identified through a referral process and nominated by the elected MPs.

In assessing the suitability of candidates, other factors are also considered, such as their time, commitment and ability to participate and contribute effectively to the Council. In addition, we ensure that at least two-thirds of the appointed Town Councillors are residents of HDB estates managed by the Town Council.

Further, the Town Council has implemented a comprehensive Risk Management Framework to ensure that key risks are identified and reported to the Council. An annual risk assessment was performed to evaluate whether internal controls are adequate and effective. The Council is of the opinion that the Risk Management Framework and supporting internal policies and procedures are adequate to address the risks of the Town Council.

Together, a better CCK home

I would like to thank my former Town Council colleagues, Mr Yee Chia Hsing and Mr Zaqy Mohamad, for their past contributions and welcome our two new MPs, Mr Don Wee and Mr Zhulkarnain Abdul Rahim to the team.

My heartfelt thanks to all our residents for their support, trust and feedback.

I would also like to extend my appreciation to the staff, town councillors, various government agencies, grassroots organisations and community partners, for your dedication and cooperation in the efficient running of CCK Town.

We look forward to the active involvement of our residents as we continue to strive to improve CCK Town and our residents' quality of life.

Let's work together to build a beautiful, inclusive and gracious home for all CCK residents.

Low Yen Ling Chairman

Chua Chu Kang Town Council

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF CHUA CHU KANG TOWN COUNCIL

(Established under the Town Councils Act, Cap. 329A)

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Chua Chu Kang Town Council (the "Town Council"), which comprise the statement of financial position of the Town Council as at 31 March 2021, the income and expenditure statement, statement of comprehensive income, statement of changes in Town Council funds and statement of cash flows for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 9 to 46.

In our opinion, the accompanying financial statements of the Town Council are properly drawn up in accordance with the provisions of the Town Councils Act, Cap. 329A (the "Act") and Financial Reporting Standards in Singapore ("FRSs") so as to present fairly, in all material respects, the financial position of the Town Council as at 31 March 2021 and of the financial performance, changes in Town Council funds and cash flows of the Town Council for the financial year ended on that date.

Basis for opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Town Council in accordance with the Accounting and Corporate Regulatory Authority ("ACRA") *Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities* ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the Annual Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF CHUA CHU KANG TOWN COUNCIL

(Established under the Town Councils Act, Cap. 329A)

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the provisions of the Act and FRSs, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

A town council is established under the Act and may be dissolved by the Minister's order published in the Gazette. In preparing the financial statements, management is responsible for assessing the Town Council's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless there is intention to wind up the Town Council or for the Town Council to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Town Council's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town Council's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF CHUA CHU KANG TOWN COUNCIL

(Established under the Town Councils Act, Cap. 329A)

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Town Council's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Town Council to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

Opinion

In our opinion:

- (a) the receipts, expenditure and investment of moneys and the acquisition and disposal of assets by the Town Council during the financial year are, in all material respects, in accordance with the provisions of the Act; and
- (b) proper accounting and other records have been kept, including records of all assets of the Town Council whether purchased, donated or otherwise.

Basis for opinion

We conducted our audit in accordance with SSAs. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Compliance Audit* section of our report. We are independent of the Town Council in accordance with the ACRA Code together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on management's compliance.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF CHUA CHU KANG TOWN COUNCIL

(Established under the Town Councils Act, Cap. 329A)

Responsibilities of Management for compliance with legal and regulatory requirements

Management is responsible for ensuring that the receipts, expenditure, investment of moneys and the acquisition and disposal of assets, are in accordance with the provisions of the Act. This responsibility includes implementing accounting and internal controls as management determines are necessary to enable compliance with the provisions of the Act.

Auditor's responsibilities for the Compliance Audit

Our responsibility is to express an opinion on the management's compliance based on our audit of the financial statements. We planned and performed the compliance audit to obtain reasonable assurance about whether the receipts, expenditure, investment of moneys and the acquisition and disposal of assets, are in accordance with the provisions of the Act.

Our compliance audit includes obtaining an understanding of the internal control relevant to the receipts, expenditure, investment of moneys and the acquisition and disposal of assets; and assessing the risks of material misstatement of the financial statements from non-compliance, if any, but not for the purpose of expressing an opinion on the effectiveness of the Town Council's internal control. Because of the inherent limitations in any accounting and internal control system, non-compliances may nevertheless occur and not be detected.

(Established under the Town Councils Act, Cap. 329A)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

1. General information

Chua Chu Kang Town Council (formerly known as Hong Kah Town Council) was formed on 5 July 1989 under the Town Councils Act (Cap. 329A). The functions of the Town Council are to control, manage, maintain and improve the common property of residential and commercial property in the housing estates of the Housing and Development Board (HDB) within the Town. The principal place of operation is at 309 Choa Chu Kang Ave 4, #02-02 Choa Chu Kang Centre, Singapore 680309.

According to the Town Councils Act (Cap. 329A), Town Councils (Declaration of Towns) order 2011 and Town Councils (Establishment) order 2011 published on 27 May 2011, the Town Council of Hong Kah shall be known as the Town Council for the Town of Chua Chu Kang from 27 May 2011. Chua Chu Kang Town Council ("Town Council") consists of the Chua Chu Kang Group Representation Constituency and Hong Kah North Single Member Constituency.

By virtue of the writ of election issued on 23 June 2020, the electoral boundaries of Chua Chu Kang Town Council were redrawn. With effect from 28 October 2020, 18,212 and 197 units of residential and commercial properties, 15,157 units of car parks lots, motorcycle lots and lorry lots under the jurisdiction of Chua Chu Kang Town Council were transferred to West Coast Town Council.

The financial statements of the Town Council for the financial year ended 31 March 2021 were authorised for issue by the management of the Town Council on 30 September 2021.

2. Summary of significant accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared in accordance with Financial Reporting Standards in Singapore ("FRS") including all related Interpretations to FRS ("INT FRS") as issued by the Singapore Accounting Standards Council and the provisions of the Town Councils Act, Cap. 329A.

The financial statements have been prepared on a historical cost basis, except as disclosed elsewhere in the financial statements.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Town Council takes into account the characteristics of the asset or liability which market participants would take into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for leasing transactions that are within the scope of FRS 116 Leases, and measurements that have some similarities to fair value but are not fair value, such as value in use in FRS 36 Impairment of Assets.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- (a) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- (b) Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- (c) Level 3 inputs are unobservable inputs for the asset or liability.

(Established under the Town Councils Act, Cap. 329A)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

2. Summary of significant accounting policies (Continued)

2.1 Basis of preparation of financial statements (Continued)

The financial statements are presented in Singapore dollar which is the Town Council's functional currency. All financial information is presented in Singapore dollar, unless otherwise stated.

2.2 Adoption of new and amended standards and interpretations

The accounting policies adopted are consistent with those of the previous financial year except that in the current financial year, the Town Council has adopted all the new and amended standards which are effective for annual financial periods beginning on or after 1 April 2020. The adoption of these standards did not have any significant effect on the financial statements of the Town Council for the current or prior years.

2.3 Standards issued but not yet effective

At the date of authorisation of these financial statements, there are FRSs, INT FRSs and amendments to FRS that were issued but are not yet effective. The management anticipates that the adoption of these FRSs, INT FRSs and amendments to FRS in future periods will not have a material impact on the financial statements of the Town Council in the period of their initial adoption.

2.4 Significant accounting estimates and judgements

The preparation of financial statements in conformity with FRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying amounts of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates. The estimates and assumptions are reviewed on an ongoing basis.

Apart from those involving estimations, the management has made judgements in the process of applying the Town Council's accounting policies. The areas involving a higher degree of judgement or complexity, or where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

2.5 Town Council Funds

In accordance with Section 33(1) of the Town Councils Act, separate funds are established to account for the management of the different types of properties. The types of properties currently under the management of the Town Council are as follows:

- Residential Property
- Commercial Property
- Car parks managed by the Town Council for the Housing and Development Board on an agency basis

These routine funds related to properties under management, together with Ordinary Sinking Funds, Lift Replacement Funds and Town Improvement and Project Funds form the Town Council funds.

All monies received by the Town Council are paid into and related expenditure is met out of the appropriate funds set up for each property type managed.

Assets and liabilities of the various funds of the Town Council are pooled in the statement of financial position.

(Established under the Town Councils Act, Cap. 329A)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

2. Summary of significant accounting policies (Continued)

2.5 Town Council Funds (Continued)

Ordinary Sinking Funds

In accordance with Section 33(4) of the Town Councils Act, separate Ordinary Sinking Funds are established for improvement to, management and maintenance of residential and commercial properties. These Ordinary Sinking Funds are maintained as part of the Town Council's Fund.

With the establishment of the Lift Replacement Fund, the minimum contribution rates for conservancy and service charges and grants-in-aid for Ordinary Sinking Funds is 26% (2020: 26%).

Under the Town Councils Act, the Minister of National Development may, from time to time, prescribe the minimum amounts of conservancy and service fees and grants-in-aid to be paid into the Ordinary Sinking Funds. These minimum contributions are treated as operating income transfers and are deducted from conservancy and service fees and government grants in the income and expenditure statement.

The minimum amounts to be paid, by property type, into the Ordinary Sinking Funds are as follows:

| (i) | 1-room to 3-rooms | 26% (2020: 26%) of conservancy and service fees and grants-in-aid |
|-------|--------------------------------|---|
| (ii) | 4-rooms | 26% (2020: 26%) of conservancy and service fees and grants-in-aid |
| (iii) | 5-rooms | 26% (2020: 26%) of conservancy and service fees and grants-in-aid |
| (iv) | Executive | 26% (2020: 26%) of conservancy and service fees and grants-in-aid |
| (v) | Shop with living accommodation | 26% (2020: 26%) of conservancy and service fees and grants-in-aid |
| (vi) | Commercial property | 26% (2020: 26%) of conservancy and service fees and grants-in-aid |

The LRF matching grant which is grants-in-aid is not subject to the minimum contribution rates to Ordinary Sinking Funds.

The Ordinary Sinking Funds are utilised for cyclical major repainting, renewal or replacement of roofing system, water tanks, pumps and water supply system, lightning protection system, installation of any sensor and starter controller to the time-controlled booster pumping system, major repairs and maintenance of the common area and contributions to the HDB in respect of general upgrading works carried out on the common property as defined under the Housing and Development Act.

Lift Replacement Funds

Under the Town Councils (Amendment) Act 2017, Town Councils are required to establish a new Lift Replacement Fund ("LRF") with effect from 1 April 2017 in accordance with Section 33(4A) of the Town Councils Act. The establishment of the LRF is a standalone fund to be carved out from the existing Sinking Funds ("SF") and ring-fenced specifically for lift replacements and other lift-related replacement works.

With the establishment of the Lift Replacement Fund, the minimum contribution rates for conservancy and service charges and grants-in-aid for Lift Replacement Funds is 14% (2020: 14%).

Under the Town Councils Act, the Minister of National Development may, from time to time, prescribe the minimum amounts of conservancy and service fees and grants-in-aid to be paid into the Lift Replacement Funds. These minimum contributions are treated as operating income transfers and are deducted from conservancy and service fees and government grants in the income and expenditure statement.

The LRF matching grant which is grants-in-aid is not subject to the minimum contribution rates to Lift Replacement Fund.

(Established under the Town Councils Act, Cap. 329A)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

2. Summary of significant accounting policies (Continued)

2.5 Town Council Funds (Continued)

Town Improvement and Project Funds

Town Improvement and Project Funds ("TIPF") are established and maintained as part of the Town Council funds. These funds are utilised for improvement and development works in the Town.

The Town Improvement and Project Funds comprise the amounts set aside for projects to be carried out in the next financial year. All expenditures on town improvement and projects are appropriated from this fund.

The fund is set up by transfer of funds from the accumulated surplus to fund specific projects to be carried out. In addition, the Town Council receives funding for approved projects under the Community Improvement Projects Committee ("CIPC") scheme. These funds are paid through the Citizens' Consultative Committees ("CCC").

2.6 Inter-fund transfers

The Town Council may make inter-fund transfers with the criteria as set out in Sections 33(9) and 43(1)(i) of the Town Councils Act (Chapter 329A) and Rule 11A of Town Councils Financial Rules.

2.7 Allocation of general overheads

Expenditure not specifically related to any property type managed, for example, administrative overheads, tree planting and pruning are allocated to the various property types using equivalent dwelling units as follows:

| Property Type | Equivalent Dwelling Unit(s) |
|-----------------------------|-----------------------------|
| 1 Residential Property Unit | 1 |
| 1 Commercial Property Unit | 2 |
| 6 Car Lots | 1 |
| 36 Motor Cycle Lots | 1 |
| 4 Lorry Lots | 1 |

A total of five percent of related overheads are allocated to Ordinary Sinking Funds and Lift Replacement Funds.

2.8 Government grants

The Town Council receives five types of grants from the Government, namely, Conservancy and Service Charges ("S&CC") Grant, Payment from CCC, GST Subvention Grant, Lift Replacement Fund Matching Grant ("LRF Matching Grant") and Lift Maintenance Grant ("LMG").

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. Where the grant relates to an asset, the fair value is recognised as deferred capital grant on the statement of financial position and is amortised to income and expenditure statement over the expected useful life of the relevant asset by equal annual instalment.

- (i) Conservancy and Service Charge operating grants to meet the current year's operating expenditure are taken to the Income and Expenditure Statement, except to the extent which is required to be transferred to Ordinary Sinking Funds and Lift Replacement Funds based on the amount prescribed.
- (ii) Payments from CCC are given as reimbursement claims under the Community Improvement Projects Committee Scheme.

(Established under the Town Councils Act, Cap. 329A)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

2. Summary of significant accounting policies (Continued)

2.8 Government grants (Continued)

- (iii) GST Subvention Grants are given as grants-in-aid to the Town Council to assist the Town Council in absorbing the GST increases in conservancy and service charges for HDB residential flats.
- (iv) Lift Replacement Fund Matching Grant ("LRF Matching Grant") is given as grant-in-aid to the Town Council by MND to match 50% of Town Council's quarterly contributions and voluntary contribution to the Lift Replacement Funds to supplement Town Council's savings.
- (v) Lift Maintenance Grant ("LMG") is given as grant-in-aid to the Town Council to cope with the higher lift-related servicing and maintenance costs. LMG will be disbursed to Town Council annually. The amount to be disbursed is \$\$600 for every eligible lift maintained by the Town Council. The grant are taken to the Income and Expenditure Statement, except to the extent which is required to be transferred to Ordinary Sinking Funds and Lift Replacement Funds based on the amount prescribed.

2.9 Plant and equipment and depreciation

Plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses. The cost of plant and equipment includes its purchase price and any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Dismantlement, removal or restoration costs are included as part of the cost of plant and equipment if the obligation for dismantlement, removal or restoration is incurred as a consequence of acquiring or using the plant and equipment.

Depreciation is charged so as to write off the cost of assets over their estimated useful lives, using the straight-line method, on the following bases:

• Furniture, fixtures and fittings

5 years

Office equipment

3- 5 years

• Right of use assets

over the lease term ranging from 3 to 6 years

The carrying values of plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The estimated useful lives, residual values and depreciation methods are reviewed, and adjusted as appropriate, at the end of each financial year.

The gain or loss, being the difference between the sales proceeds and the carrying amount of the asset, arising on disposal or retirement of an item of plant and equipment is recognised in income and expenditure statement.

Fully depreciated plant and equipment are retained in the financial statements until they are no longer in use.

(Established under the Town Councils Act, Cap. 329A)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

2. Summary of significant accounting policies (Continued)

2.10 Financial assets

All financial assets are recognised and de-recognised on a trade date basis where the purchase or sale of financial assets is under a contract whose terms require delivery of assets within the time frame established by the market concerned. All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

(i) Classification and measurement of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition, the Town Council may make an irrevocable election (on an instrument-by-instrument basis) to designate investments in equity instruments as at fair value through other comprehensive income (FVTOCI). Designation at FVTOCI is not permitted if the equity investment is held for trading or if it is contingent consideration recognised by an acquirer in a business combination to which FRS 103 applies.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Town Council manages together and has evidence of a recent actual pattern of short-term profit-taking

Amortised cost and effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

For financial instruments other than purchased or originated credit-impaired financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses, through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition. For purchased or originated credit-impaired financial assets, a credit-adjusted effective interest rate is calculated by discounting the estimated future cash flows, including expected credit losses, to the amortised cost of the debt instrument on initial recognition.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. On the other hand, the gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

Interest is recognised using the effective interest method for debt instruments measured subsequently at amortised cost.

(Established under the Town Councils Act, Cap. 329A)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

2. Summary of significant accounting policies (Continued)

2.10 Financial assets (Continued)

(ii) Impairment of financial assets

The Town Council recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through Income and Expenditure Statement or the respective funds. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Town Council expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

The Town Council always recognises lifetime ECL for conservancy and service receivables.

The Town Council applies a simplified approach in calculating ECLs. Therefore, the Town Council does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Town Council uses the practical expedient under FRS 109 in the form of allowance matrix to measure the ECL for trade receivables, where the loss allowance is equal to lifetime ECL. The following allowance matrix is used:

| | Rate of Provision |
|---|-------------------|
| Live accounts with arrears in excess of 12 months | 100% |
| Terminated accounts with arrears in excess of 12 months | 100% |

Any subsequent changes in lifetime ECL, both positive and negative, will be recognised immediately in Income and Expenditure Statement or respective funds.

The Town Council considers a financial asset to be in default when internal or external information indicates that the Town Council is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Town Council. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

(iii) Derecognition of financial assets

The Town Council derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Town Council neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Town Council recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Town Council retains substantially all the risks and rewards of ownership of a transferred financial asset, the Town Council continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

(Established under the Town Councils Act, Cap. 329A)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

2. Summary of significant accounting policies (Continued)

2.11 Impairment of non-financial assets

At each reporting date, the Town Council reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss.

Where it is not possible to estimate the recoverable amount of an individual asset, the Town Council estimates the recoverable amount of the cash-generating unit to which the asset belongs. If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. Impairment losses are recognised as an expense immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognised as income immediately.

2.12 Funds with fund managers

Funds with fund managers represent the cost of the portfolio of assets placed with fund managers at the beginning of each management term plus investment income less management fees payable during the management term.

Funds with fund managers comprise mainly of equities, bonds, cash and fixed deposits. Equities and bonds are stated on an aggregated portfolio basis.

2.13 Other receivables

Other receivables recognised initially at fair value and subsequently at amortised cost using the effective interest method, less any impairment losses.

2.14 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits and other short term highly liquid investments which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents exclude those managed by the fund manager.

(Established under the Town Councils Act, Cap. 329A)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

2. Summary of significant accounting policies (Continued)

2.15 Financial liabilities

Initial recognition, measurement and derecognition of financial liabilities

A financial liability is recognised at each reporting date when, and only when, the Town Council becomes a party to the contractual provisions of the instrument. The initial recognition of financial liability at fair value is normally represented by the transaction price. The transaction price for financial liability not classified at fair value through profit or loss includes the transaction costs that are directly attributable to the acquisition or issue of the financial liability. Transaction costs incurred on the acquisition or issue of financial liability classified at fair value through profit or loss are expensed off immediately. The transactions are recorded at the date of transaction.

The Town Council derecognises financial liability when, and only when, its obligations are discharged, cancelled or expired.

Subsequent measurement

Subsequent measurement based on the classification of financial liabilities of the respective categories is as follows:

- (i) Liabilities at fair value through profit or loss: As at the reporting date, there were no financial liabilities classified under this category.
- (ii) Other financial liabilities: All liabilities, which have not been classified in the previous category fall into this residual category. These liabilities are carried at amortised cost using the effective interest method. Payables and borrowings are classified under this category. Items classified within current payables are not usually re-measured, as the obligation is usually known with a high degree of certainty and settlement is short-term.

2.16 Fair value of financial instruments

The carrying values of current financial assets and financial liabilities approximate their fair values due to the short-term maturity of these instruments. The fair value of a financial instrument is derived from an active market. The appropriate quoted market price for an asset held or liability to be issued is usually the current bid price without any deduction for transaction costs that may be incurred on sale or other disposal and, for an asset to be acquired or liability held, the asking price.

2.17 Payables and accrued expenses

Liabilities for trade and other amounts payable, which are generally settled on 30-90 days terms, are carried at cost, which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to Town Council.

2.18 Provisions

A liability or provision is recognised when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are made using best estimates of the amount required in settlement and where the effect of the time value of money is material, the amount recognised is the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense. Changes in estimates are reflected in the income and expenditure statement in the period they occur.

(Established under the Town Councils Act, Cap. 329A)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

2. Summary of significant accounting policies (Continued)

2.19 Revenue recognition

Conservancy and service fees and agency fees

Conservancy and service fees is charged on a monthly basis to the lessees and tenants of the Housing and Development Board (HDB) flats and shops/offices towards the maintenance and upkeep of the common property under the Town Council. Conservancy and service fees are allocated between Operating Funds, Ordinary Sinking Funds and Lift Replacement Funds in accordance with the Town Councils Act, Cap. 329A. Conservancy and service fees are recognised as a performance obligation over time. Agency fees received for routine maintenance of HDB's car parks and common property within the town is recognised as a performance obligation over time.

Interest income

Interest income from fixed deposits is recognised on a time proportion basis using the effective interest rates. Income from funds placed with fund managers is recognised based on fair value through profit or loss.

Investment income

Investment income from investments at amortised cost is recognised, in the respective funds, on a time proportion basis using the effective interest method.

Other income

Other income comprises mainly licence fees ("TOL") income, liquidated damages claims and other miscellaneous income and are recognised when earned.

2.20 Leases

The Town Council assesses whether a contract is or contains a lease, at inception of the contract. The Town Council recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the Town Council recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Town Council uses the incremental borrowing rate specific to the lessee.

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is presented as a separate line in the statement of financial position.

(Established under the Town Councils Act, Cap. 329A)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

2. Summary of significant accounting policies (Continued)

2.20 Leases (Continued)

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Town Council remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate;
- the lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used); or
- a lease contract is modified and the lease modification is not accounted for as a separate lease, in which
 case the lease liability is remeasured by discounting the revised lease payments using a revised discount
 rate.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Whenever the Town Council incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under FRS 37. The costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

Right-of-use assets are depreciated on straight-line basis over the lease term of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Town Council expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets are presented as a separate line in the statement of financial position.

The Town Council applies FRS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in Note 2.11.

Variable rents that do not depend on an index or rate are not included in the measurement of the lease liability and the right-of-use asset. The related payments are recognised as an expense in the period in which the event or condition that triggers those payments occurs and are included in general and administrative expenditure within the income and expenditure statement.

As a practical expedient, FRS 116 permits a lessee not to separate non-lease components, and instead account for any lease and associated non-lease components as a single arrangement. The Town Council has not used this practical expedient. For a contract that contain a lease component and one or more additional lease or non-lease components, the Town Council allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

(Established under the Town Councils Act, Cap. 329A)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

2. Summary of significant accounting policies (Continued)

2.21 Income tax

Tax is provided on the following income:

- (i) Interest income derived from investments and bank deposits;
- (ii) Fees, rent and other charges received from non-residents or non-owners of properties in the Town for the use of common property; and
- (iii) Donations from non-residents or non-owners of properties in the Town

Income tax is accounted using the asset and liability method that requires the recognition of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequence of events that have been recognised in the financial statements or tax returns. The measurements of current and deferred tax liabilities and assets are based on provisions of the enacted or substantially enacted tax laws, and the effects of future changes in tax laws or rates are not anticipated. Income tax expense represents the sum of the tax currently payable and deferred tax. Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same income tax authority. The carrying amount of deferred tax assets is reviewed at each reporting date and is reduced, if necessary, by the amount of any tax benefits that, based on available evidence, are not expected to be realised. Deferred taxes are recognised for all temporary differences.

In respect of government grants received, the Town Council has been granted remission under Section 92(2) of the Income Tax Act, Cap. 134. Conservancy and service charges are not subject to income tax.

2.22 Foreign currency transactions and translation

The financial statements of the Town Council are measured and presented in Singapore dollar, which is the currency of the primary economic environment in which the Town Council operates (its functional currency).

In preparing the financial statements of the Town Council, transactions in currencies other than the Town Council's functional currency are recorded at the rates of exchange prevailing on the date of the transaction. At each reporting date, monetary items denominated in foreign currencies are retranslated at the rates prevailing on the reporting date.

2.23 Neighbourhood Renewal Programme and Electrical Load Upgrading Programme

The Neighbourhood Renewal Programme ("NRP") was introduced in August 2007 in response to feedback received from residents during the Forum on HDB Heartware for more active consultation on the improvements to be provided in their precincts.

The NRP, which replaces the Interim Upgrading Programme ("IUP") Plus, focuses on block and improvements. It is implemented on a larger area basis of 2 or more contiguous precincts.

Blocks built up to 1989 and have not undergone the Main Upgrading Programme ("MUP"), Interim Upgrading Programme ("IUP") or IUP Plus are eligible for NRP.

The funding for the NRP is provided by the government for the specified use of projects under the programme. The grant is subject to a budget allocation of S\$3,400 per dwelling unit for NRP works, as well as S\$150 per dwelling unit or S\$125,000, whichever is higher for miscellaneous expenditure. However, if the cost of project works incurred exceeds the grants provided, the Town Council will have to bear the cost of the excess expenditure.

The Electrical Load Upgrading Programme ("ELU") was introduced to upgrade the incoming electrical supply for HDB apartment blocks from 30amps to 40amps. This programme is fully funded by HDB and administered by the Town Council.

(Established under the Town Councils Act, Cap. 329A)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

2. Summary of significant accounting policies (Continued)

2.24 Selective Lift Replacement Programme

The Selective Lift Replacement Programme ("SLRP") was introduced in September 2014 to help replace eligible older lifts with new ones that come with updated features such as more energy-efficient motors, vision panels for added security, and doors with infra-red motion safety sensors.

Under the SLRP, the Government will co-fund 50% of the lift replacement cost capped at \$125,000 (inclusive of GST) per lift.

The co-funding amount will be disbursed to Town Councils in two stages as shown below:

Stage Disbursement Quantum

Award of Contract 25% of Lift Replacement Cost Completion of Lift Replacement 25% of Lift Replacement Cost

2.25 Lift Enhancement Programme

The Lift Enhancement Programme ("LEP") was introduced in September 2016 to help Town Councils modernized their existing Housing Development Board (HDB) lifts that have been in operation for 18 years or less with installation of the recommended enhancement features. HDB will fund about 92.5% of the costs which is derived from the total of individual caps of each lift component required.

3. Critical accounting judgments and key sources of estimation uncertainty

Estimates and judgements are continually evaluated and are based on historical experience and other factors including expectations of future events that are believed to be reasonable under the circumstances. Apart from information disclosed elsewhere in these financial statements, the following summarises estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and significant judgements made in the process of applying the Town Council's accounting policies.

(a) Critical accounting estimates and assumptions

The Town Council makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(i) Impairment of conservancy and service receivables and grants receivables

The Town Council measures impairment loss based on an expected credit loss (ECL) on conservancy and service debts and related interest charged for late payment. When measuring ECL, the Town Council uses reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other. Probability of default constitutes a key input in measuring ECL. Probability of default is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions. The gross amount of conservancy and service fee and related ECL are disclosed in Note 12.

(Established under the Town Councils Act, Cap. 329A)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

3. Critical accounting judgments and key sources of estimation uncertainty (Continued)

(a) Critical accounting estimates and assumptions (Continued)

(ii) Income tax

The Town Council is subject to income taxes in Singapore. Judgement is required in determining the deductibility of certain expenses during the estimation of the provision for income taxes. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of operations. The Town Council recognises liabilities for expected tax issues based on estimate of whether additional taxes will be due. Where the final tax outcome of these matters differs from the amounts that were initially recognised, such differences will impact the income tax provisions in the period in which such determination is made. As at 31 March 2021, the tax payable by the Town Council was \$\$1,116,537 (2020: \$\$1,120,799).

(iii) Financial instruments measured at amortised cost

Debt investments held by the Town Council is measured at amortised cost as both the 'business model test' and the 'contractual cash flow characteristics test' are satisfied. The business model test is whether the objective of the Town Council's is to hold the financial asset to collect the contractual cash flows rather than have the objective to sell the instrument before its contractual maturity to realise its fair value changes. The contractual cash flow characteristics test is whether the contractual terms of the financial asset give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(iv) Lease – estimating the incremental borrowing rate

The Town Council cannot readily determine the interest rate implicit in the lease, therefore it uses its incremental borrowing rate to measure lease liabilities. The incremental borrowing rate is the rate of interest that the Town Council would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right of use asset in similar economic environment. The incremental borrowing rate therefore reflect what the Town Council "would have to pay", which requires estimation when no observable rates are available or when they need to adjusted to reflect the terms and conditions of the lease. The Town Council estimates the incremental borrowing rate using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates.

The carrying amount of the Town Council's lease liabilities as at the end of the reporting period is \$\$1,758,558 (2020: \$\$2,797,188).

(b) Key sources of estimation uncertainty

Management is of the opinion that there are no key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year, except for those as disclosed above under critical accounting estimates and assumptions.

The initial measurement of Right of use - computer system is based on the physical property unit ("PPU") managed by the Town Council. Due to redrawing of electoral boundaries and resultant change in sharing ratio for capital and maintenance costs between various town councils, the right of use asset has been remeasured, with a corresponding adjustment to the related lease liabilities (Note 16).

(Established under the Town Councils Act, Cap 329A)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

10. DEBT INVESTMENTS AT AMORTISED COST

| | 2021 S\$ | 2020 S\$ |
|---|--|--|
| Quoted debt securities, at amortised cost | 13,000,000 | 26,000,000 |
| Quoted debt securities, at amortised cost Less: current portion - quoted debt securities Non-current portion | 13,000,000 (5,000,000) 8,000,000 | 26,000,000 (13,000,000) 13,000,000 |
| With maturity within 1 year: 1.95% p.a. (FY19/20: 2.71% to 3.14% p.a.) With maturity 1 to 5 years: 1.825% to 2.505% p.a. (FY19/20: 1.825% to 2.505% p.a.) At amortised cost | 5,000,000 8,000,000 13,000,000 | 13,000,000 13,000,000 26,000,000 |
| Market value at 31 March | 13,266,465 | 26,362,190 |

Financial assets held at amortised costs are denominated in Singapore dollars.

The fair value of government bonds is based on quoted market rates at the reporting date.

11. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

The financial assets at fair value through profit or loss represent funds and related investment income placed with professional fund managers. The investments are managed by fund managers appointed by the Town Council based on terms and conditions stipulated on the respective investment agreement. As at the reporting date, the funds invested through a fund manager comprised the following:

| | 2021 | 2020 |
|------------------------|------------|------------|
| | S\$ | S\$ |
| Quoted equities | 6,109,330 | 3,599,075 |
| Quoted debt securities | 30,057,300 | 30,272,179 |
| | 36,166,630 | 33,871,254 |

12. CONSERVANCY AND SERVICE FEES RECEIVABLES

The Town Council has receivables arising from the performance of its function that do not have a significant financing component. In order to determine the amount of expected credit losses (ECL) to be recognised in the financial statements, a provision matrix is applied on accounts which are considered to be credit-impaired which is adjusted for forward-looking estimates and establishes that ECL should be calculated as:

| | | 2021 | 2020 |
|--|------------------------------------|-------------|-----------|
| | • | S\$ | S\$ |
| Conservancy and service fees receivables | | 2,702,843 | 3,408,017 |
| | Rate of provision | | |
| Live accounts with arrears in excess of 12 months | 100% | 1,420,247 | 1,966,637 |
| Terminated accounts with arrears in excess of 12 months | 100% | 210,817 | 67,271 |
| Expected credit loss as at 31 March 2021 | • | 1,631,064 | 2,033,908 |
| | · • | 1,071,779 | 1,374,109 |
| The movements in above provision in respect of conservancy and service fee | es receivables during the year are | as follows: | |
| | | 2021 | 2020 |

| | 2021 | 2020 |
|-----------------------------------|-----------|-----------|
| | S\$ | S\$ |
| Balance at 1 April | 2,033,908 | 1,851,734 |
| Additional charge during the year | 266,239 | 331,650 |
| Bad debt written off | (5,963) | (149,476) |
| Amount transferred to WCTC | (663,120) | - |
| Balance at 31 March | 1,631,064 | 2,033,908 |
| | | |

(Established under the Town Councils Act, Cap 329A)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

25. CAPITAL EXPENDITURE COMMITMENTS

Capital expenditure approved by the Town Council but not provided for in the financial statements is as follows:

| | 2021 | 2020 |
|--|------------|-------------|
| | S\$ | S\$ |
| Amount approved and contracted for | 27,421,598 | 58,836,855 |
| Amount approved and not contracted for | 46,289,471 | 66,917,708 |
| •• | 73,711,069 | 125,754,563 |

The commitments amount included Neighbourhood Renewal Programme projects amounting to S\$7,746,735 (2020: S\$18,354,650), which is funded by HDB.

26. SIGNIFICANT RELATED PARTY TRANSACTIONS

In addition to the related party information disclosed elsewhere in the financial statements, the following significant transactions with related party on terms mutually agreed during the financial year are as follows:

| | 2021 | 2020 |
|---|-----------|-----------|
| | S\$ | S\$ |
| Managing agent's fees | 4,612,003 | 4,955,377 |
| Lift testing fees | 432,000 | 432,000 |
| Project management and Fire safety manager fees | 612,233 | 1,292,868 |

Related party relates to the managing agent of the Town Council who manages the operations of the Town Council.

27. RECEIVABLES FOR SELECTIVE LIFT REPLACEMENT PROGRAMME AND LIFT ENHANCEMENT PROGRAMME

Under the Selective Lift Replacement Programme ("SLRP"), HDB on a cost-sharing basis with the Town Councils will replace selected old lifts with new ones that come with better safety and security features. The SLRP is a once-off programme and the advances would be spent when cyclical replacement is carried out.

Under the Lift Enhancement Programme, HDB on a cost-sharing basis with the Town Councils will modernise eligible lifts with new safety features.

28. FINANCIAL INSTRUMENTS AND FINANCIAL RISKS

The Town Council's financial instruments comprised mainly cash & cash equivalents, and various items including investments in financial assets, conservancy and service fees receivable and other receivables, accrued expenses and other payables that arise from its operations.

The main risks arising from the financial instruments are credit risk and market risk. The Town Council is not exposed to foreign exchange risk for the year ended 31 March 2021. There is no significant liquidity risk as sufficient cash is maintained to meet its operational requirements. The Town Council's reviews on the policies for managing these risks are disclosed below.

(a) Credit Risk

Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty default on its obligations. Financial assets that are potentially subject to credit risk consist principally of cash equivalents, receivables and investment in financial assets, including funds with fund manager. The maximum exposure to credit risk is the carrying value of the financial instruments at the end of the financial year. Credit risk on cash and cash equivalents are limited because they are placed with financial institutions with acceptable credit ratings.

For receivables, an ongoing credit evaluation is performed on the financial conditions of the receivables and losses on impairment are recognised in the income and expenditure statement. The allowance for impairment of conservancy and service fees receivable totalling S\$1,631,064 (2020: S\$2,033,908) is determined at the reporting date.

There is no concentration of credit risk with respect to conservancy and service fees receivable, as the Town Council has a large number of household owners.

(Established under the Town Councils Act, Cap 329A)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

28. FINANCIAL INSTRUMENTS AND FINANCIAL RISKS (CONTINUED)

There are no other material class of financial assets that are past due except for the conservancy and service fees receivables as disclosed below:

| | <u>Note</u> | 2021 | 2020 |
|--------------------------|-------------|-------------|-------------|
| | | S\$ | S\$ |
| Not past due | | 243,332 | 354,345 |
| Past due 0-12 months | | 720,093 | 836,376 |
| Past due 12-24 months | | 554,984 | 463,878 |
| Over 24 months | | 1,184,434 | 1,753,418 |
| | | 2,702,843 | 3,408,017 |
| Allowance for impairment | | (1,631,064) | (2,033,908) |
| · | 12 | 1,071,779 | 1,374,109 |

Conservancy and service fees receivables amounting to \$\$1,071,779 (2020: \$\$1,374,109) are not impaired, as the management believes that it will be collectible in the foreseeable future as a result of recovery efforts and based on historical experience.

Exposures to credit risk in funds with fund managers and other investments comprises mainly debt securities, equities and exchange traded products.

Investments in debt securities, equities and exchange traded products are subject to adverse changes in the financial condition of the issuer, or in general economic conditions, or both, which may impair the ability of the issuer to make payment of interest and principal. Exposure to credit risk is monitored by the Town Council's management and the professional investment advisors (in the case of funds with fund managers) with oversight from the Town Council. In addition, the Town Council is required to comply with the requirements as stated in the Town Councils Financial Rules on investment criteria.

Investments classified as debt investments at amortised cost comprised bonds issued by Statutory Boards and/or Government related agencies.

(b) Market Risk

The Town Council is exposed to market risk arising from the Town Council's financial assets held in funds with a fund manager and held-to-maturity financial assets. Market risk is the risk of potential adverse changes to the value of the financial instruments because of changes in market conditions such as interest rates and volatility in security prices.

(i) Price risk

The Town Council is exposed to market risk arising from investments which are classified on the statement of financial position at fair value through profit or loss. Fluctuation in the market price of a security may result from perceived changes in the underlying economic characteristics of the investments and the general market conditions. The investment portfolio with fund manager is monitored by the fund manager on a regular basis so as to assess changes in fundamentals and valuation. Guidelines have been set by the Town Council to manage the exposure of the investment portfolio so as to reduce exposures to market volatility by diversifying the investment portfolio into equities, bonds and other financial assets and to ensure compliance with the Town Council Financial Rules on investments and investment criteria.

The Funds with Fund managers has investment in exchange traded derivatives which are used for hedging purposes.

The table below, summarises the impact to the Town Council's funds with a fund manager, stated at fair value through profit or loss as a result of a 10% increase/decrease in its fair value.

| | | Increase/(Decrease) | | | |
|---------------------------|-------------|---------------------|-------------|------------------|--|
| | Net A | Net Assets | | g Fund Statement | |
| | 2021 | 2020 | 2021 | 2020 | |
| | S\$ | S\$ | S\$ | S\$ | |
| Funds with a fund manager | | | | | |
| - increase by 10% | 3,616,663 | 3,387,125 | 3,616,663 | 3,387,125 | |
| - decrease by 10% | (3,616,663) | (3,387,125) | (3,616,663) | (3,387,125) | |

(ii) Interest rate risk

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates.

The Town Council has interest-bearing fixed deposits placed with financial institutions, financial assets held at amortised and debt securities managed by the fund manager. As the Town Council's debt securities held by funds with a fund manager were mainly confined to trading portfolio managed by the fund manager, presentation of interest rates will not be meaningful to the users of financial statements.

(Established under the Town Councils Act, Cap 329A)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

28. FINANCIAL INSTRUMENTS AND FINANCIAL RISKS (CONTINUED)

The Town Council has interest-bearing fixed deposits with financial institutions and financial assets held at amortised cost. The interest rates are disclosed in Notes 10, 14 and 16 to the financial statements. The interest-bearing fixed deposits and financial assets held at amortised cost are mainly at fixed rates at the reporting date.

Sensitivity analysis for interest rate risk

At the end of the reporting period, if interest had been 25 basis points higher/lower with all other variables held constant, the Town Council's surplus net of tax would have been \$56,929 (2020: \$77,599) higher/lower.

(iii) Foreign Currency Risk

Town Council is not exposed to foreign currency risk as at 31 March 2021 and 2020.

(c) Liquidity Risk

Liquidity risk is the risk that the Town Council will encounter difficulty in meeting financial obligations due to shortage of funds. The Town Council manages the liquidity risk by maintaining sufficient cash, internally generated cash flows, as well as on basis of expected payment dates of the financial

It is expected that all the liabilities will be paid when due. The Town Council expects to meet its cash commitments with cash flows from operating activities and government grants.

The table below analyses the maturity profile of the Town Council's financial assets and liabilities based on contractual cash flows:

| | Less than | | More than | | |

(Established under the Town Councils Act, Cap 329A)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

29. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair values

The carrying amount of financial assets and liabilities with a maturity of less than one year is assumed to approximate their fair values.

The Town Council does not anticipate that the carrying amounts recorded at the end of the reporting period would be significantly different from the values that would eventually be received or settled.

Fair value hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- (a) quoted prices in active markets for identical assets or liabilities (Level 1);
- (b) inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices) (Level 2); and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

(I) Assets measured at fair value

The following table shows an analysis of each class of assets and liabilities measured at fair value as at 31 March 2021 and 31 March 2020.

| | <u>Level 1</u> S\$ | Level 2 S\$ | <u>Level 3</u> S\$ | <u>Total</u> S\$ |
|---|-----------------------|----------------|-----------------------|---------------------|
| Recurring fair value measurement | 33 | 33 | 39 | ₽ |
| 31 March 2021 Financial assets at fair value through profit or loss (Note 11) | 36,166,630 | - | _ | 36,166,630 |
| 31 March 2020 Financial assets at fair value through profit or loss (Note 11) | 33,871,254 | - | - | 33,871,254 |

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. These instruments are included in Level 1.

(II) Assets not carried at fair value but for which fair value is disclosed

The following table shows an analysis of the Town Council's assets not measured at fair value at 31 March 2021 and 31 March 2020 but for which fair value is disclosed:

| | Level 1 S\$ | Level 2 S\$ | <u>Level 3</u> S\$ | <u>Total</u> S\$ | Carrying amount S\$ |
|--|----------------|----------------|-----------------------|---------------------|---------------------|
| 31 March 2021 Debt investments at amortised cost (Note 10) | 13,266,465 | | <u>.</u> | 13,266,465 | 13,000,000 |
| 31 March 2020 Debt investments at amortised cost (Note 10) | 26,362,190 | <u>-</u> | - | 26,362,190 | 26,000,000 |

30. FAIR VALUE OF OTHER ASSETS AND LIABILITIES

The carrying amounts of short-term assets and liabilities approximate their respective fair values due to the relatively short term maturity of these financial instruments. The fair value of other classes of financial assets and liabilities are disclosed in the respective notes to the financial statements.

(Established under the Town Councils Act, Cap 329A)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

31. FUNDS MANAGEMENT

The Town Council's objectives when managing funds are:

- (a) to safeguard the Town Council's ability to continue as going concern;
- (b) to provide resources to sustain future development; and
- (c) to provide funds for the purpose of strengthening the Town Council's risk management capability.

The Town Council actively and regularly reviews and manages its funding structure through professional fund managers to ensure optimal funding structure, taking into consideration the future funding requirements, projected operating cash flows, projected capital expenditures and projected strategic investment opportunities.

There were no changes in the Town Council's approach to fund management during the year.

The Town Council is not subject to externally imposed requirements.

The Town Council total funds amounted to S\$143,769,915 (2020: S\$167,212,210).

32. RECLASSIFICATIONS

Reclassifications have been made to the prior year's lift replacement funds for LRF matching grant between residential property and commercial property, due to an entry error. As a result, certain line items have been amended in the statement of financial position and related notes to financial statements.

The following shows the balances before and after the reclassification of the Company's financial statements for the financial year ended 31 March 2021.

| | Previously | After |
|------------------------|----------------|------------------|
| | reported | reclassification |
| | 2020 | 2020 |
| | S\$ | S\$ |
| Lift Replacement Funds | | |
| Residential Property | 4,344,192 | 4,323,245 |
| Commercial Property | <u>155,425</u> | 176,372 |

33. SECTION 34 TRANSFERABLE SURPLUS AS AT 22 JUNE 2020

This represents a transfer of 80% of the accumulated surplus to Sinking Fund under Section 34 of Town Council Act when a writ of election is issued. The surplus transferred to Sinking Funds are based on the Town Council's audited balance sheet as at 31 March 2019 being the last audited balance sheet immediately before the issue of the writ of election, adjusted for fixed assets additions and capital commitments entered into by the Town Council on or before 22 June 2020, being the day immediately before the writ of election is issued.

(Established under the Town Councils Act, Cap 329A)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2021

34. ACCUMULATED SURPLUS TRANSFERRED TO WEST COAST TOWN COUNCIL

By virtue of writ of election issued on 23 June 2020, the electoral boundaries of Chua Chu Kang Town Council were redrawn. With effect from 28 October 2020, 18,212 and 197 units of residential and commercial properties, 15,157 units of car parks lots, motorcycle lots and lorry lots under the jurisdiction of Chua Chu Kang Town Council were transferred to West Coast Town Council. Following this reconstitution, the following are funds transferred to West Coast Town Council:

| | Note | Total S\$ | Residential Property Funds S\$ | Commercial Property Funds S\$ | Carpark Fund S\$ |
|--|------|---|---|--|---------------------|
